

St. Charles

Huge bay windows bathe the formal living room and master bedroom with light. A courtyard entrance opens to a living room with high ceilings defined by crown molding whose focal point is the wood burning fireplace with a traditional old style mantle. The kitchen has rich oak cabinets. Adjacent is the ½ bath and storage. The two-story stairwell illuminated by a beveled cut-glass light fixture leads to two bedrooms upstairs. A mirrored door corridor leads to the upstairs bath which has a spacious oval Roman tub and cultured marble vanities.
